

NETSUITE – THE PERFECT SOLUTION FOR FAST-GROWING BUSINESSES

New and Fast-Growing Businesses Need Quick, Scalable Solutions

You're a new or fast-growing business. You're perhaps taking advantage of the opportunities created by the digital revolution. You'll need to adopt processes and systems that will enable, not hinder, the long-term growth of your business—enabling faster growth whilst controlling costs and delivering great customer service.

NetSuite provides such a solution—future proofing your business. You'll be wanting to offer ecommerce, track sales leads, handle multiple sales channels, manage stock and have information in real-time that helps you make fast, well-informed decisions about where to invest.

Offering unrivalled scalability and flexibility, cloud-based NetSuite is the perfect solution—one system, one solution available anywhere, anytime.

Challenges of New and Fast-Growing Businesses

- Data is being recorded in different places for different activities—the information is unstructured and disconnected – NetSuite provides one system that integrates all the data and provides real-time information from which the Board can make decisions.
- You need to be able to support different sales channels with different billing requirements – NetSuite is flexible and customizable—it can invoice in any way you want—and the billing process can be automated.
- You need your systems to be scalable—to add value to your growth, wherever it may be – NetSuite is multi-currency, multi-language and available anywhere, anytime. It can support businesses of any size.
- You want to implement a system fast and you need reassurance it'll work out of the box – A basic version of NetSuite can be up and running in a matter of weeks—forming a base on which you can grow your usage of the wide functionality as your business grows.
- You want your team to use best practice processes and they need a system that's easy to use – NetSuite has over 40,000 customers—all using the same best practice processes. Being a modern, cloud-based system it is easy to use and needs little investment in training.

Helping 40,000+ businesses thrive in the modern world, NetSuite future proofs your business—don't just take it from us.

PropertyGuru

“NetSuite OneWorld has allowed us to grow. It's very easy to expand into new countries and set up new subsidiaries, and we have much better visibility into the business.”

SunMoon

“With NetSuite, we've been able to move our products seamlessly from farm to fork on a global scale much faster and more efficiently.”

Guzman Y Gomez

“We've been able to manage significant growth while maintaining a five-person financial team. That's really a testament to the power of the NetSuite platform.”

AAE Travel

“NetSuite OneWorld immediately appealed to us as a flexible, subscription-based solution, so we would have no concerns over having to manage local servers, backup or maintenance.”

HK Express

“NetSuite OneWorld provided a modern, scalable system with minimal upfront investment and the flexibility to adapt it to our needs.”

Treknology Bikes 3

“For any company that is growing, NetSuite is a great advantage to your competitiveness. It's a very powerful ERP system. Everything is on the cloud. When you want that information, it's just there.”

ESET

“We have been able to customize NetSuite to meet most of our needs, faster and at a lower price than we would have with any other system.”

Scoot

“We looked at other major and more established ERP, but NetSuite was the clear winner in meeting our requirements for cost-efficiency, fast deployment, real-time visibility into the business and flexibility.”
