REVIEWS

Astral GoCardless has been a fantastic extension to link GoCardless with Business Central. This has enabled us to take Direct Debits easily and clearly with simple processes in place. The extension does everything we need it to, and has some failsafes to ensure that errors are not made. Having the information go out of and back into Business Central with minimal manual input ensures we aren't wasting time and we can clearly see anything outstanding. The Astral team have been brilliant with any questions and are always a pleasure to deal with.

Astral GoCardless

We use Astral Pay to connect our card payments into Business Central which saves us time, money, and reduces the risk of errors. Very happy with the product and the team who are always on hand to help.

Astral Pay

Astral GoCardless completely streamlines the payments and payouts process between GoCardless and Business Central. Reduced our processing time by just over 90%.

Astral GoCardless

Astral Apply is a fast, user friendly and cost effective way to apply entries in the BC general ledger.

Astral Apply

Using Astral Send has saved our business so much time for sending out our invoicing documents. It's simple to setup and easy to change settings such as the content of the email you want to send out, which means we have used it for multiple purposes. Really happy with the product and would recommend.

We have more exciting extensions in the pipeline. If you'd like to know more about our current projects, feel free to ask. Additionally, we're open to development recommendations. If your customer has specific needs, let us know—we might even create a custom solution for them *at no cost*.

We have 3 of (Astral 365) extensions integrated into our system and all of them are excellent and have helped us grow our business. The team are always so helpful and friendly for anything we need, and I would have absolute faith in any new products they bring to market.

Ready? This is how it works...

1 PURCHASE

Most of our extensions come with a 30-day free trial period, once this is up, if you would like to purchase the extension you will need to fill in the purchase form linked below.

2 PAYMENT COLLECTION

After filling in the purchase form you will receive your first invoice with a link to your chosen payment method. We use our Astral Pay (powered by Stripe) and Astral GoCardless extensions for payment collection. When filling in the payment info using the link on the invoice, it's important to make sure you tick the Save Card box so that our recurring billing system can collect your monthly payments.*

Invoices are issued on the 1st of the month with payment collection on the 15th.

3 CURRENCY

All pricing is in GBP.

The boring **stuff...**

SAVING PAYMENT CARD INFO

If you do not select Save Card, when the payment is attempted the next month and fails, your extension will be automatically disabled. You will then incur an additional £50 admin fee for sending out another paylink.

EMAIL PROVIDED

We will use the email you provide in the form as our main contact for communication. This will include invoice/payment updates as well as new version updates.

LICENSE GUID

Please make sure the License GUID you provide in the purchase form is the one linked to your live account and not your Sandbox when purchasing.
